

# BLAIRLOGIE BUGLE

Your Window on the Village and the Logie Community December 2018  
Blairlogie, Cotkerse, Gogar, Manor, Powis and Witches Craig

What's Coming Up!		
Saturday 8th December 2018	Christmas Lights	Includes Carols & Mulled Wine
Saturday 2nd February 2019	Burnt Supper	
Saturday 6th April 2019	Wine Tasting	A Professional Presentation
Saturday 18th May 2019	Musical Evening	Cameron & Cavana

## **Are you new to the Logie area?**

A warm welcome awaits you at any of these events. No need to make contact, just show up at the Reading Room.

## **A message from Paula of the events team:**

It is getting close to that time of year again when the lights sparkle and the punch warms us up! On behalf of the events team can I invite you all to the Christmas light up this year. Please see the poster attached. Print it off and put in your kitchen! Come and help start the festive season with fun and cheer! Saturday 8th December at 6pm at the tree!

Please also keep Saturday 2nd February free for our annual "Burnt Supper" A Burns Supper with a difference. We guarantee a night of Scottish fun! More information to follow. The committee have planned a wine tasting in April and a music night in May! So watch this space!

It is a wonderful time to join together, make new friends and have some fun!

## **Logie Community Council:**

As a result of a revised scheme for community councils Logie was allocated six places and nine people stood as candidates. The election count will be held at Stirling Council HQ on Monday 3rd December and the inaugural meeting of the new Community Council will take place on Tuesday 11th December at 7.30pm in the Reading Room. At that meeting the various office bearers of the CC will be appointed.

## **The Bugle Still Needs A New Editor:**

A new editor may do this news letter a different way but form an orderly queue!

### **Logie Fast Broadband:**

Plans are afoot to convert the existing fast wireless broadband network to a fibre-optic operation. A grant has been made available to Logie Community Interest Company (CIC) to undertake a design study for this new project.

It maybe that the final design will be a combination of fibre-optic and ultra fast wireless broadband. There are various challenges in building such a system in a conservation area and also covering outer rural clients.

If this can be achieved it will be a great benefit to the community.

# **LOGIE CHRISTMAS LIGHT- UP!**

**Saturday 8th December**

**Come along for cheer, carols and  
musical items**

**6pm at the tree**

**(Not to mention mince pies!)**

*Merry Christmas!*
